

# Rainbow Game

Use every color of the rainbow to win this game. Below is a list of colors. Every time you see something out the window, write it down next to its color. For example, when you see a yellow school bus, write "BUS" down on the "Yellow" line. The first person to fill up the rainbow wins.

A graphic of a rainbow with seven colored bands: red, orange, yellow, green, blue, indigo, and violet. The rainbow is wavy and positioned diagonally. To the left of the rainbow, there are seven horizontal lines for writing, each connected to a color label by a vertical line. The labels are: RED, ORANGE, YELLOW, GREEN, BLUE, INDIGO, and VIOLET. The labels are positioned to the left of the rainbow, with lines connecting them to the corresponding color bands. Below the rainbow, there are three more horizontal lines for writing, with labels BLUE, INDIGO, and VIOLET positioned to the right of the rainbow, with lines connecting them to the corresponding color bands.
